*Guilan University*
09/2018 – 01/2023

## EXPERIENCE

**Web & UI/UX Designer (HiWi / Student Assistant)**
*Carl von Ossietzky University of Oldenburg / OFFIS*
06/2026 – Present | Oldenburg, Germany
- Redesigned and rebuilt the SPP 2199 website, improving content structure, UX/UI, and the design system in WordPress/Elementor.
- Serve as Web & Design Chair for Mensch und Computer 2027, shaping the website, visual direction, and information architecture.
- Collaborate with researchers and organizers from design through implementation, using AI-assisted workflows.

**Product Designer, Brand Designer**
*MGC Ecosystem*
02/2024 – 01/2026 | Dubai, UAE
- Delivered end-to-end design solutions for 10+ startups in gaming, AI, and crypto, covering everything from brand identity and UI/UX design to marketing assets.
- Crafted distinctive logos and style guides that strengthened each startup's market presence, contributing to 5 successful product launches and funding rounds.
- Designed intuitive user interfaces for web and mobile apps (e.g., a crypto trading platform, an AI SaaS tool, a mobile game), improving user onboarding and retention by approximately 15% on average.

**Design System Specialist, Visual Designer**
*Nikandish Group*
01/2023 – 01/2024 | Tehran
- Implemented design tokens (for color, spacing, typography, etc.) to bridge design and co de, improving front-end consistency and cutting UI build time by ~30%.
- Established thorough documentation and UX standards, reducing duplicate design work a nd accelerating prototyping speed by 20% across product teams.

**Graphic Designer**
*SnappTrip*
10/2020 – 10/2023 | Tehran
- Engineered a 20-page brand book to unify Snapptrip's visual identity across web, app, and print, strengthening design consistency.
- Produced 100+ marketing and product assets (social media graphics, email templates, in- app banners) with a quick turnaround, maintaining high engagement rates.

**UI/UX Designer, Brand Designer**
*Carriot*
02/2022 – 02/2023 | Tehran
- Modernized Carriot's web dashboard across 50+ screens and assembled a 30+ component UI kit to enhance navigation and reduce UI inconsistencies.
- Revamped the company website end-to-end, which improved lead conversion by an estimated 20% through clearer UX flows and refreshed, responsive visuals.
